

Qatar Airways, China Southern Airlines launch codeshare

A Monitor Report

Date: 01 January, 2021

A Monitor Report

Doha : Qatar Airways has announced that the first stage of codeshare cooperation with China Southern Airlines has begun with the Chinese carrier placing its code on Qatar Airways flights between Guangzhou and Doha. Flights are already available for sale with the first codeshare flights started from December 27, 2020.

This codeshare agreement is the first step in the strengthening of cooperation between both airlines, since Qatar Airways acquired five per cent of China Southern Airlines in December 2018. The codeshare flights will enable China Southern Airlines' passengers to book travel on Qatar Airways' flights between Guangzhou and Doha and onwards to more than 60 destinations in Africa, Europe and the Middle East. The next stage of the codeshare agreement will see the Chinese carrier also place its code on Qatar Airways flights between Beijing and Doha, once the current restrictions for flights in and out of China are lifted.

The national carrier of the State of Qatar continues to rebuild its network, which currently stands at over 100 destinations and plans to increase to 129 by the end of March 2021. With more frequencies being added to key hubs, Qatar Airways offers unrivalled connectivity to passengers, making it easy for them to change their travel dates or destination if they need to. Qatar Airways also remains committed to

honouring passenger refunds, paying out over USD 1.65 billion since March 2020. Passengers can book flights with peace of mind, knowing that Qatar Airways offers unlimited date changes and fee-free refunds for all tickets issued before April 30, 2021, for travel completed by December 31, 2021. The carrier's industry-leading flexible booking policy also provides the permanent feature of exchanging tickets for a travel voucher with 10 per cent additional value for all customers booking travel via qatarairways.com.

Inks codeshare expansion deal with Oman Air

Qatar Airways continues to expand its portfolio of strong, globally strategic partnerships by signing an expanded code-share agreement with Oman Air that will boost connectivity and provide more flexible travel options for both airline's customers. The expanded code-share agreement is the first step in further strengthening strategic cooperation between the two airlines that first began in 2000. Sales of the additional destinations will commence in 2021.

The code-share expansion will significantly increase the number of destinations available to Oman Air passengers from three to 65 on the Qatar Airways' network across Africa, the Americas, Asia Pacific, Europe, India, and the Middle East. Qatar Airways passengers will also benefit from additional connectivity, with the ability to book travel on an additional six destinations across Africa and Asia in Oman Air's network. Both airlines will also explore a number of joint commercial and operational initiatives to further optimise their partnership.

Qatar Airways' strategic investment in a variety of fuel-efficient, twin-engine aircraft, including the largest fleet of Airbus A350 aircraft, has enabled it to continue flying throughout this crisis and perfectly positions it to lead the sustainable recovery of international travel. The airline recently took delivery of three new state-of-the-art Airbus A350-1000 aircraft, increasing its total A350 fleet to 52 with an average age of just 2.6 years.
