

## Gentle Park brings summer collection

A Monitor Report

Date: 01 June, 2021

Dhaka : Restricted movement or lockdowns throughout the year have made everyone used to wearing comfortable dresses. So this year too, loose clothing is dominating the fashion. However, the fashion brand Gentle Park experimented with variety this time, bringing in experimental top-to-bottom, sleeves or collars or clothing patterns.

According to the needs of the customers, these comfortable clothes will also have a sparkle of colour. Arguably, Gentle Park's new summer ready-to-wear arrangement depends entirely on youth. What is going on in the international fashion is dominated by the weaving and design of the fabric. Changes have been made in the basic fitting of garments made of oven and knit fabric. Solid, print, stripe and floral motifs will predominate in these youth-oriented garments. There are also clothing and fashion accessories for women, men and children.

Shahadat Chowdhury Babu, Chairman of Gentle Park and Head of Design, said the new clothes have a clear masculine and tailored look. There are also a variety of designs with flat-front denim and knitwear. These collections will also give a lot of comfort to those who want a casual look out of a little formal. 'New Formal' clothing has been brought in thanks to Work from Home during corona.
