

Walton launches three new desktop PC series

A Monitor Report

Date: 01 September, 2021

Dhaka : Walton has launched three new series of desktop computers.

The Kaiman series desktop PCs feature attractively designed tower casing, Intel's 10th generation processor, high-speed SSD along with 7200rpm 1TB hard drive, and 8GB DDR4 2666MHz RAM.

According to Walton computer department, the new desktop series are "Kaiman EX B," "Kaiman EX G" and "Kaiman EX Pro."

Prices of the series begin at BDT 34,500, and customers will have up to three years' warranty.

Intel's UHD 630 internal graphics and H410 chipset have been used on these desktop PCs. All models feature dual storage facilities with a 1TB hard drive and 128 or 256GB SSD.

"Customers have to pay more while purchasing processors, RAM, graphics cards due to the shortage of integrated circuits all over the world. However, Walton is providing balanced specifications to help the consumers get PCs at affordable prices in this tough time. We hope this new series of Kaiman desktop PCs will fulfil the needs of customers," said Engineer Liakat Ali, Deputy Managing Director, Walton Digi-Tech Industries.
