Fully vaccinated travellers from Bangladesh will no longer require quarantine on their arrival in the Netherlands.

But the travellers must be tested before their departure from Bangladesh, even if they are fully vaccinated.

Bangladesh Embassy in The Hague shared the updated directives for Bangladeshi nationals travelling to the Netherlands from Bangladesh.

Those who are not vaccinated, or partially vaccinated, must have quarantine statement with them and need to be home quarantined.

Earlier, the Malaysian government lifted its entry restrictions for fully vaccinated nationals from Bangladesh.

Travellers would also need to provide a negative Covid-19 RT-PCR test result for entry.

Meanwhile, the UAE has made it mandatory for passengers from Bangladesh to depart within six hours of taking an RT-PCR test at the airport.
